Introduction

What is TipMe Prestashop Payment Gateway Module?

Prestashop is an eCommerce platform, built on open source technology, which provides online merchants with a flexible shopping cart system, as well as control over the look-and-feel, content and functionality of their online store.

Prestashop has been integrated with TipMe to offer businesses and individuals who wish to engage in eCommerce to be able to receive payments using their TipMe wallet account. It also allows shoppers to shop online and make payments using their TipMe wallet balance.

Installing and configuring the TipMe's payment gateway module is simple, secure and convenient. No prior programming knowledge is required.

Signing up for a TipMe account

Before you can start taking payments through TipMe's payment gateway, you will first need to sign up and be approved for a TipMe Business (merchant) account. Refer to our TipMe User Manual.

Once your Business account has been approved you can configure your TipMe Payment Gateway module and start accepting payments.

Installing and Configuring Prestashop
